THE GAZETTE.

SATURDAY EVENING, APRIL 1.

Mrs. Harriet Beecher Stowe has been so ill of late that she has decided on a permanent change of her home. She will leave her fine house in Hartford, Conn., and spend most of the months in the year at her estate in Florida. During the warm months she will live in some northern seaboard town.

Information has been received in Newark, N. J., that the small-pox had broken out at Princeton College, and that a panic and stampede of the students had followed.

The Cincinnati Gazette of the 29th, publishes a letter from Mr. Jesse Grant, the father of the President, of nearly two columns, being his history of his difficulty with the "Stoms family." The fire at Truckee destroyed almost the entire city-120 buildings-including all the busi-

ness portion of the place and the Chinese quar-

ELEGANT HAIR adds a charm to the plann est face; but when faded, features before agreeable lose their comeliness, and the whole expression is that of advancing age. This being a fact, it is not surprising that even injurious articles should have been prepared to supply the millions who wish to avoid premature gray hair. Under these circumstances it will scarcely be wondered at that NATTANS' CRYSTAL DIS-COVERY should have met with such extraordinary success.

It is the only preparation furnishing a safe and reliable restorer for the hair; absolutely free from all poisonous and deleterious matter and without sediment, and thousands above thousands have availed themselves of it, not simply because it restores the color of the hair, but because it supplies nourishment. It feeds the roots of the hair, so that where decayed it becomes vigorous and healthy again. From all sections of the country orders and testimonials are received daily, speaking in the highest terms of its qualities as the only preparation that ever gave entire satisfaction. Those who have used CRYSTAL DISCOVERY will not use any thing else; but to those who have not tried this excellent article it is recommended that when they are again in want of something of the kind to give it a trial; you will be more than pleased; you will be delighted with it, and will never again be without it. Don't let your druggist, if he has not got CRYSTAL DISCOVERY persuade you to buy something else, or you will be disappointed; rather go where you can get it put up in large bottles, confaining half as much more as any other in market and, consequently much the cheapest. Price one dollar. For sale by WAR-FIELD & HALL, and druggists generally. mar 8-tf

COHEE. The celebrated stallion COHEE will be let this season. All persons wishing his services had better apply soon, as he will be limited to a certain number. Description:—Cohee is a dark, mahogany bry, about 16 hands high, 12 years old. His pedigree will show that there is not, and never was, in America a higher bred horse. He is uncommonly large for a thorough bred, and very beautiful. For those who understand such matters, we will say: He was by imported Skylark; his dam by imported Lufborough; his grand-dam by old Str Archy; his great-grand-dam by Taylor's Topgallant; his great-great-grand-dam was imported Castianera, the dam of old Sir Archy. Proofs of his pedigree are altogether of a class about any possible doubt. J. OWEN KERBY. mh 20-tt

CHARLES WHITTLESEY,

UNITED STATES COMMISSIONER,

ATTORNEY AND COUNSELLOR IN BANKRUPTCY.

Congress having just amended the Bankrupt law so that nearly all parties can be discharged from their debts unobstructed by the fifty per cent. clause, so-called, another opportunity offers to secure the benefits of this most effective and permanent measure of relief. The above-named

will make bankrupt business a specialty; will procure discharges on the most moderate terms, and transact all business in that line at prices which cannot fail to be satisfactory. Being Uni-ted States Commissioner he will endeavor to visit the different counties on court days, and thus save parties the trouble and expense of several trips to Alexandria in beginning and proceeding with their cases. Discharges can be obtained here before Register Hill as promptly as in Rich-mond or elsewhere, and at much less expense to parties. It may be added that the Bankrupt act, in connection with the Homestead exemption, which it is now believed will be secured to the bankrupt under the bankrupt law, is the only real relief now offered to parties struggling in the hopeless bondage of old debts. CTARKE'S DIXIE PLOW.

By invitation of Mr. F. C. Williams, of the county of Nottoway, a number of gentlemen as-sembled at his residence, Saturday, December 10, to test, by practical experiment, the comparative value of the Dixie Plow, manufactured by Starke & Co., and any other that might enter

the field of competition. The plows were taken to the field at half-past The plows were taken to the field at half-past two o'clock p. m., the following gentlemen acting as judges: F. W. Epes, J. B. Williams, Robert Scott, Jas. S. Gilliam, W.m. T. Christian, Richard Epes, Dr. Darring, Sidney Graves, Walton Sydnor, F. C. Williams, G. N. Seayand J. M. Hutt. Mr. S. Graves and Walton Sydnor were the principal plowmen, Mr. W. Sydnor working the Watt plow and S. Graves the Dixie both of whom bendled them with masterly -both of whom handled them with masterly skill and success.

The plows entered were the Dixie two-horse right and left hand plows, and the Watt two-horse left hand. Soon after the trial commenced, the beam of the Dixie right band broke in two and was laid aside, the contest being narrowed to the Watt left hand and Dixie left hand. The soil first selected was a stubble loam without soil; but as the plows were new, and did not turn in consequence of the roughness of the castings, after a short trial it was decided to take them to another field where the soil was a well trodden, tenacious clay, with a timothy soil covered with vegetation and with straw. The plows here per-formed their work admirably, cutting and turning clear without choking.

As the Dixie was a new comer, as the contest waxed warm, most of the judges took hold of it to test personally its practical working. While there is no intention to do injustice to any, as neither party had agent or representative pre-sent, and both plows did well, yet the trial, with the award of the judges, is deemed of sufficient importance to the interest of agriculture to justify its publication.

The award of the judges was unanimously in fayor of the Dixie on the following grounds: 1st. It cut a deeper furrough. 2d. It cut a wider furrough.

3d. It more effectually inverted the sod.

4th. The draft seemed to be no greator. 5th. The mechanical arrangement for altering cut was deemed more simple and efficient. At the conclusion of the trial some of the judges were so pleased as to determine to order them J. M. HURT, Secretary. for their own use.

I certify that the above was sent to the Richmond Whig for publication by myself; that I am not acquainted with Mr. Starke; that he had never seen the paper and knew nothing of its contents, and was in no wise a party to the trial of plows alluded to. J. M. HURT. January 7, 1871.

We, the judges in the "Plow Trial" on the farm of Mr. F. C. Williams, published in the Whig, hereby certify that it was directed to be sent to that journal as a communication by the judges who made the award.

SOLUBLE PHOSPHATE

Reduction in Price!

This article in composed of Pure Ground Bone dissolved in Sulphuric Acid, Animal Matter and

Potash. It contains no heavy mineral substances such as enter into the composition of most of the artiles sold under the name of Super Phosphates, and consequently the bags in which it is packed though as large as any other, contain only 167 pounds, thus saving to the farmer at least 20 per cent of weight in the same bulk.

It has less inorganic matter than those articles which are based on Rock Guano or other heavy material. The farmer therefore derives benefit from almost every atom of its bulk, either as a rop grower or permanent improver of the soil.

Geo. C. Gilmer, esq.: Yours asking the result of my experiment with Magnum Bonum is to hand. The Fertilizer was applied to corn at planting, May 5th, with machine, (wheat drill, with all tubes but two removed,) depositing same with seed at the rate of 50 pounds per acre. On June 28th was applied broadcast of same manure two hundred pounds per acre, ploughed in at last working of corn. The first application acted finely, causing the crop to push with a vigorous growth second to none, considering the difference as to time in favor of its competitors. The second application made when the corn was beginning to suffer for rain was entirely satisfactory in its results, producing a steady, rapid growth and development throughout the season, and a full remunerative return at gathering. The Magnum Bonum ranks among the best manures ever used. Respectfully. J. O. МсGенке, Manager.
